

H-58 PAVING AND CLOSURE

Pictured Rocks National Lakeshore
National Park Service
U.S. Department of Interior

This summer the Alger County Road Commission is paving a 3.5 mile section County Highway H-58 between the Log Slide Road and Grand Sable Lake overlook. Construction will require closure of the road between these two points. Visitors traveling through the Lakeshore will be detoured as shown on the map below. The project will begin in May and will last the entire summer.

Visitors entering the park from Grand Marais will only be able to travel as far as Grand Sable Lake. In order for you to access the rest of the Lakeshore, you will be routed back through Grand Marais south on M-77 9 miles to the Adams Trail. (Detour signs will be posted.) You will then be directed to travel 12 miles west on the Adams Trail (a narrow, rough dirt road) to the Kingston Corner intersection with County Highway H-58. From the Kingston Corner intersection, you can access the remaining park facilities to the east and west.

Visitors entering the Lakeshore from the west will be able to access all facilities and areas up to and including Log Slide. In order to reach Grand Sable Lake and Grand Marais you will be directed back (westward) to the Kingston Corner intersection, where you will be detoured 12 miles east on the Adams Trail then north 9 miles to Grand Marais.

For visitors attempting to reach facilities at Miners Castle, Chapel/Mosquito, Little Beaver Lake, Twelvemile Beach, Hurricane/Au Sable, and Log Slide areas, it is recommended that you enter the Lakeshore from the west, (Munising). For current information, call the visitor center at 906-387-3700 or 906-494-2660.
